2026

FALL IMPACT REPORT

Driving measurable outcomes across
the global fintech landscape.

Atlanta — *Washington* — *London*

ACTIONS

PARTNERSHIPS

STRATEGIC MOMENTUM

FROM FOUNDATION TO FLOOR ACTION

Following the landmark enactment of the **Georgia Stablecoin Payment Act (HB 1272)** and high-profile summer engagements across London, Zurich, and Wall Street, The Fintech Accord and The Stablecoin Institute executed a targeted **three-day diplomatic mission to Washington, D.C., September 9–11, 2026** — positioned at the direct intersection of the executive branch and Capitol Hill.

Mission Objective

Advance final legislative provisions of the CLARITY Act through coordinated engagement with the White House, U.S. Treasury, and key Senate and House offices ahead of pivotal floor action.

Coalition Strength

Tier-one partners Paysafe, Dun & Bradstreet, and Mica.io integrated across all strategic sessions — from closed-door Treasury briefings to Capitol Hill delegation meetings.

Defining Signal

White House alignment on the CLARITY Act confirmed at the highest level of executive digital asset advisory leadership.

“The future for digital assets is bright. We're disappointed by the failure of Clarity to advance at this time. Perhaps there's an opportunity in the future, but nonetheless, this administration is going to move out on providing as much regulatory clarity that we possibly can through the administration's policies.”

-Patrick Witt, Executive Director of the President's Council of Advisors for Digital Assets at the White House

8

SEPT 15 — HOUSE SMALL BUSINESS SUBCOMMITTEE HEARING

"Main Street Meets Crypto: What Digital Assets Mean for Small Businesses"

TREASURY INNOVATION SESSION: **Mica.io Showcase**

Technology showcase convened with the **Treasury Payments & Innovation Team** and **Strategic Priorities Team** at the Main Treasury Building — formally introducing Fintech Accord partner **Mica.io** to senior Treasury leadership.

Mica.io Formal Introduction

Mica.io presented as a disruptive payment processing technology partner to Treasury's Payments & Innovation and Strategic Priorities teams — establishing its profile within the federal innovation ecosystem.

Credential-Less Transactions

Demonstrated how Mica.io's architecture eliminates friction in high-volume payment flows while maintaining full compliance integrity — a critical differentiator for regulatory-grade deployments.

Real-Time Multi-Tender Settlement

Showcased settlement capability directly aligned with Treasury's strategic priorities for enterprise infrastructure modernization and next-generation payment architecture.

Fraud Mitigation Alignment

Next-generation compliance architecture validated as directly advancing Treasury's consumer protection and fraud prevention mandates — key to long-term regulatory partnership.

STRATEGIC OUTCOME: Mica.io established as a credible, mission-aligned technology partner within Treasury's innovation ecosystem — laying the groundwork for continued formal engagement.

EXECUTIVE BRANCH: SEPTEMBER 9

White House Briefing

[LinkedIn Post](#)

Throughout our executive briefings with White House administration leadership, including Executive Director Patrick Witt, the takeaway was consistent: The Fintech Accord delivered an exceptionally rigorous, credible, and bipartisan framework to the table. While legislative timing and political crosscurrents ultimately stalled immediate action, the consensus remains that the policy fundamentals are sound—and the door is firmly open for when the conversation resumes.

Closed briefing at the [Eisenhower Executive Office Building \(EEOB\)](#) with [Patrick Witt](#), Executive Director of the President's Council of Advisors for Digital Assets — a direct signal of The Fintech Accord's standing at the highest levels of executive branch digital asset leadership.

Legislative Coordination

Engaged directly on digital asset legislative priorities and framework design — ensuring The Fintech Accord's policy positions are reflected at the White House level.

Industry Messaging Alignment

Aligned our collective narrative to ensure consistent, credible positioning across all stakeholder channels — from Capitol Hill to industry press.

Bipartisan Ethics Review

Addressed bipartisan ethics considerations under active review by White House policy advisors — a signal of the administration's commitment to responsible, durable digital asset policy.

STRATEGIC OUTCOME: White House engagement positions The Fintech Accord as a **trusted, senior-level voice** in the digital asset policy conversation — not peripheral, but inside the room where final decisions are made.

CAPITOL HILL | SEPT 10

Bipartisan Senate & House Collective Engagements

Six targeted congressional office engagements spanning Senate Banking leadership, tax counsel, committee staff, and House leadership — advancing digital asset policy priorities and building durable relationships across the legislative branch.

Sen. Dave McCormick — Alex Craner (R-PA)

Highly aligned and receptive to safe harbor provisions and institutional market architecture. Strong positive signal on digital asset regulatory priorities.

Sen. Mike Rounds — Will Van Camp (R-SD)

Deep engagement on systemic risk boundaries and nationwide regulatory clarity — strong positive momentum confirmed.

Senate Banking Committee — Colin Carr

Constructive review of digital asset legislative priorities, amendment structures, and committee sequencing — strong working relationship established.

Sen. James Lankford — Caroline Oakum (R-OK)

Highly engaged on tax policy and digital asset definitions — solid alignment confirmed from the office on key policy priorities.

Rep. Brian Jack — Anna Claire Stietenroth (R-GA)

Strong House leadership coordination pairing strategic Senate outreach with regional payment support and constituent-level digital asset access.

Sen. Jerry Moran — Zachary Hampton & Tatum Brunkow (R-KS)

Addressed federal official divestment and government ethics parameters — broad commitment to responsible digital asset policy confirmed from the office.

TREASURY POLICY SESSION:

Pragmatic Rulemaking

Senior-level policy strategy session at the U.S. Treasury, including engagement with **Nicholas Tabor, Deputy Assistant Secretary for International Financial Markets** and senior leadership — focused on cross-border frameworks and multi-issuance dynamics at the heart of next-generation digital asset regulatory architecture.

Multi-Issuance Dilemma

Addressed the structural complexities of multi-issuer stablecoin frameworks and their downstream implications for domestic capital markets — including reserve requirements, interoperability standards, and systemic risk exposure.

GENIUS Approach Validated

Reinforced why balanced supervisory regimes — rather than blanket prohibitions — are essential to domestic capital resilience and long-term market confidence in dollar-denominated digital assets.

Interest Parity Dynamics

Covered covered interest parity considerations critical to cross-border payment framework design — ensuring U.S.-issued stablecoins remain competitive against foreign digital currency alternatives.

Cross-Border Harmonization

Established shared framework principles for multi-jurisdictional stablecoin issuance, aligned with Treasury's international policy posture and G7 digital asset coordination commitments.

STABLECON 2026 | SEPT 9–10 | NATIONAL HARBOR

Industry Collective Presence at Stablecon 2026

Members of **The Fintech Accord** and **The Stablecoin Institute** attended Stablecon 2026 at National Harbor, Washington, D.C. (September 9–10) — reinforcing the collective's visibility at the premier stablecoin industry gathering of the year, immediately preceding the Capitol Hill delegation engagements.

Collective Visibility

Demonstrated unified industry presence at the most prominent stablecoin-focused conference of the year, with Paysafe, D&B, and Mica.io represented across programming and networking.

Peer Engagement

Connected with leading stablecoin issuers, payment infrastructure providers, and regulatory stakeholders from across the ecosystem — reinforcing The Fintech Accord's position at the center of the industry conversation.

Strategic Timing

Attendance immediately preceded Capitol Hill delegation engagements on September 10 — maximizing momentum, stakeholder alignment, and media visibility across a high-intensity policy week.

Narrative Reinforcement

Amplified The Fintech Accord's policy positions on digital asset frameworks, cross-border payment infrastructure, and multi-issuance dynamics in an environment of high media and regulatory attention.

ATLANTA FINTECH WEEK

The Fintech Nightcap @Cosm

Wednesday September 30

ATLANTA FINTECH WEEK

The Fintech Accord Strategy Lab

Building the Bilateral Rail: The Launch of the Atlanta–London Fintech MOU

Thursday October 1

During Atlanta Fintech Week 2026, The Fintech Accord and The Stablecoin Institute convened more than 80 senior leaders from fintech, digital assets, commercial banking and institutional treasury for an invitation-only Strategy Lab at Forth Atlanta.

The program explored how corporate treasury management, stablecoins and tokenized deposits are reshaping the movement of money across borders. Miles Celic OBE, CEO of TheCityUK, opened with a keynote on transatlantic policy and capital markets, followed by an industry panel featuring Chris Mayo and Jordan Reynolds.

Working sessions examined cross-border payments, stablecoin liquidity, tokenized deposits and the evolving regulatory corridors between the United States and United Kingdom. Christopher Petersen, Founder of Mica, presented a vision for next-generation financial infrastructure, while Congressman Rich McCormick closed with remarks on American financial leadership and regulatory modernization.

Transatlantic Agenda

ATLANTA FINTECH WEEK - TRANSACTION ALLEY

Transatlantic Executive Roundtable

Friday October 2

The Fintech Accord convened an executive leadership session to accelerate a direct commercial corridor between Atlanta and London, linking Transaction Alley's fintech ecosystem with UK and European markets.

FEDERAL

U.S. Treasury in attendance

CAPITOL HILL

Georgia Congressman in attendance

LOCAL

Invest Atlanta, representing the Mayor's office

INTERNATIONAL

Dignitaries from The CityUK

INDUSTRY

Global Payments, US Bank, Checkout.com, Lorum & more

4 FOUNDATIONAL WORKSTREAMS

Commercial Landings

Business commitments, job targets, and residency milestones for entrants.

Regulatory Alignment

Mutual recognition and faster licensing, backed by Georgia's MALPB charter and Stablecoin Payment Act.

Capital & PE Networks

Deal pipelines, PE network links, and cross-border pilots.

Talent & Research

Academic exchanges, internships, and talent mobility, pairing the Georgia Fintech Academy with UK research labs.

IMMEDIATE IMPACT & NEXT STEPS

BILATERAL OPERATING FRAMEWORK

Intent becomes accountable deliverables via a shared KPI matrix.

ECOSYSTEM GROWTH

Transaction Alley as the practical U.S. gateway for UK and European fintech.

PARTICIPATING ORGANIZATIONS

WHY PARTNER WITH THE FINTECH ACCORD

EXPLORE
OUR SITE

The Fintech Accord offers current and prospective partners something categorically different: *proven, senior-level access* to the executive branch and bipartisan Congressional leadership — not peripheral attendance, but closed-door briefings, strategy sessions, and technology showcases that move policy.

Proven Access

Direct engagement with the White House, U.S. Treasury, and bipartisan Congressional leadership — inside the room where decisions are made.

Legislative Impact

Active role shaping digital asset legislative frameworks, safe harbor language, and cross-border framework design — from state-level enactment through federal engagement.

Partner Elevation

Tier-one partners Paysafe, D&B, and Mica.io formally showcased to Treasury leadership and integrated across all partnership engagements.

Global Reach

Engagements spanning Atlanta, Washington D.C., London, Zurich, and Wall Street — positioning partners at the center of the global digital asset conversation.

State-to-Federal Pipeline

Demonstrated track record from Georgia HB 1272 enactment through senior-level federal engagement — a full-stack policy execution capability no other initiative offers.

Immediate Value Ahead

Atlanta Fintech Week, Q4 federal rulemaking engagement, and continued Treasury and Capitol Hill access offer tangible, near-term value for new and existing partners.
